

# Learning from home

Our advice to you

We will strive to deliver the best possible education to your child while they are learning from home. Here are some practical ways you can support your child at home.

## Structure each day

Routine is important. For this reason, we ask students to stick to their current school timetable. Timetables can be accessed through our Sentral Portal.

## How can parents help?

- ✓ Set regular wake up times
- ✓ Keep using alarm clocks to help students wake up
- ✓ View your child's Google Classroom page and help your child tick-off work that needs to be completed
- ✓ Establish a quiet working area and try to minimise distractions such as mobile phones, TV and/or social media

# How will communication occur?

## Guidelines to online learning

-  All teachers will use Google Classroom. Work will be set for every lesson and students are expected to complete and submit this work within their scheduled class time.
-  When appropriate, teachers may use ZOOM, a powerful Video Conferencing system that enables the class to meet in a virtual space. Teachers will communicate ideas, create class discussions and students can ask their teacher questions if required.
-  Parents can be invited to view their child's Google Classroom page. Just ask your child to request their teachers to invite parents/guardians to their Google Classroom page.
-  Students can email teachers if they have questions or need advice. Teachers also may choose to set work through email, hence, students are reminded to regularly check their school email account.
-  Students are to wear respectable casual clothing, as for multi-day.

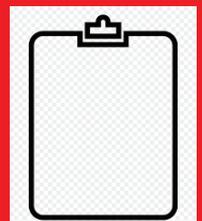

## What if there are internet issues at home?

-  If you experience an unexpected internet outage, please notify the College by phone so we can let our PC Coordinators know. They will then pass on this information to your child's teachers.

## How will attendance be taken?

Each lesson, teachers will record attendance based on;

- Submission of work for that lesson on Google Classroom
- Interaction with work on Google Documents
- Engagement in class-based video-conferences

# Support is available

## Support for your child

Students are reminded that they have access to all the normal support networks available at the College. Pastoral Care Coordinators, KLA Coordinators and our counsellors will all continue their support roles as normal, through online communication.

Your child might feel a little unsettled with the changes to their normal school routine and are likely to ask some questions. Listen to them and help them to express their feelings. Let them know that it is okay to feel a variety of emotions.

### Our advice for balance

Remind your child to take scheduled breaks.

A burst of exercise or physical activity can relieve stress and improve your child's mood.

If you or your child have any questions about learning from home, please contact your child's teacher so they can offer help and support.
